

ASW007

ASW007 - Professional Outdoor Access Control terminal

PRODUCT OVERVIEW

ASW007 is a professional outdoor access control product, specially designed for the international high terminal access control market. It adopts Lumidigm multi-spectral imaging optical sensor, this kind of sensor can capture both the outer skin and inner skin regardless of genetic, dry, contamination and even environmental factor.

As it collects information from below the surface of the skin, it protects the system against fake finger. With weather-proof water-proof functions, it can be used outdoor.

ASW007 is high security, high reliability, high identification speed access control.

TECHNICAL SPECIFICATION

User: 1500/5000

Dimensions: 226.5(L) mm*110(W) mm*101.11(H) mm

Transaction: 50,000/ 1,20,000

Wiegand I/O: 26 or 26 bit

Sensor: Lumidigm Optical sensor

USB-HOST 2.0 Port

International Protection: IP54/ IP65

Operation Temperature: -45

CPU: 32bit ZK6001 Microprocessor

Operation Humidity: 20-80%

Identification/ verification Mode:

Power: 12V DC, 300mA

1:N, 1:G, N=100, G=5

Identification Speed: <=2 Sec

Access Control: 50 time zone, 5 group, 10 time combination

FAR<=0.0001%

Optical Functions: Web Server, Work Code, Antipass, ID/Mifare/HID iClass card

ERR<=1%

Communication: RS232, RS485, TCP/IP
